CIRCULAR

On the basis of the reference received from one of the accounting units, a clarification was sought from the Tax Consultant regarding taxability of the payment to the retired employees on account of medical treatment as per SJVN Contributory Scheme for Post Retirement Medical Facility.

On the basis of the opinion received, it has been clarified that " while effecting the payments / reimbursements of the amount spent by retired employees for medical treatment of himself or any authorized/dependent member of his family not exceeding Rs.15,000/- in a financial year is not taxable. However, while affecting such payments it may be ensured that necessary Income Tax deduction may be made at the applicable rates for payments above Rs.15, 000/- in a financial year. "

To ascertain the applicable rate of Income Tax, Ex/Retired employees may be asked to submit details of estimated total income from various sources as per format enclosed. On the basis of the declared estimated taxable income, income tax may be deducted as per applicable slab rate before releasing any payment to the retired employees.
